

# Company Asset Management Rulebook

This rulebook defines policies for requesting, approving, allocating, using, maintaining, and returning company assets.

## 1. Purpose

Ensure company assets are allocated fairly, securely, and efficiently.

## 2. Scope

Applies to employees, contractors, interns, and consultants.

## 3. Asset Categories

Laptops, desktops, monitors, mobile devices, software licenses, VPN access, peripherals, and specialized equipment.

## 4. Eligibility Matrix

L1-L2: Standard Laptop. L3-L4: High-performance Laptop + Monitor. L5+: Executive-grade Laptop, Monitor, and Mobile Device.

## 5. Request Process

Requests must include business justification and required specifications.

## 6. Approval Rules

Approvals depend on role eligibility, business need, budget, inventory, and policy compliance.

## 7. Inventory Management

Alternative assets may be suggested when preferred assets are unavailable.

## 8. Duplicate Request Policy

Same asset requests within 30 days require special approval.

## 9. Software License Policy

Licenses are allocated according to job responsibilities and seat availability.

## 10. Security Requirements

All devices must use approved security software, encryption, and MFA.

## 11. Asset Usage Guidelines

Assets remain company property and are intended for business use.

## 12. Lost or Damaged Assets

Must be reported within 24 hours.

## 13. Asset Return Policy

Assets must be returned upon resignation, transfer, or termination.

## **14. Compliance & Audits**

The company may audit assets and usage records.

## **15. Suspicious Activity Monitoring**

Unusual request patterns may trigger investigation.

## **16. Exception Handling**

Exceptions require manager and IT approval.

## **17. Policy Violations**

Violations may result in denial, recovery, or disciplinary action.
