Professional Summary

Full-Stack Web Developer and IT undergraduate (3rd Year, VSB Engineering College) with hands-on experience building RESTful APIs, production web applications, and AI-powered systems. Deployed MERN stack web app used by **1000+** users; built Spring Boot backends with JWT auth and real-time WebSocket systems. National-level hackathon winner. Solved **150+** **LeetCode** problems with strong DSA fundamentals.

Technical Skills

Languages: Java, Python, JavaScript, SQL, HTML, CSS

Frameworks & Tools: Spring Boot, React, Node.js, Express, FastAPI, REST APIs, WebSockets, Git, GitHub

Databases: MongoDB Atlas, MySQL, PostgreSQL, Endee Vector DB

Cloud & DevOps: AWS (EC2, S3, IAM, VPC), Docker, Streamlit

Core CS: Data Structures & Algorithms, OOP, JWT Authentication, RAG Pipeline, API Design

Internship

SkillWallet – Virtual Internship Program

May 2026 – Current

Cloud Practitioner Intern

Remote

- Currently participating in an AWS Cloud Practitioner virtual internship focused on core cloud services including EC2, S3, IAM, and VPC.
- Learning cloud architecture, deployment fundamentals, and AWS security concepts through guided sessions, hands-on activities, and project-based tasks.

Projects

ErrorLens – Semantic Error Log Analyzer | FastAPI, Endee Vector DB, Groq LLM, Docker | GitHub

Apr 2026

- Built a production-style **AI-powered semantic log analyzer** using **Endee vector database**, replacing regex-based search with 384-dim embeddings – evaluated among **1000+** applicants for Endee Vector DB Internship 2026.
- Implemented **RAG pipeline** using Groq LLM (llama3-8b) to auto-generate root cause analysis; achieved **126 logs/sec** ingestion and **140ms** semantic search latency via Docker Compose deployment.

JobFlow – Job Application Tracker | Backend Developer | Spring Boot, MySQL, JWT | GitHub

- Built a RESTful backend with Spring Boot 3 and Spring Security (JWT) managing job workflows across 5 status stages with role-based access control and automated email notifications via JavaMailSender.

VSBECC Task Manager – Full Stack Web App | MERN Stack | GitHub | Live

- Built and deployed a full-stack MERN web application with JWT auth, 5-role access control, and file management (Cloudinary + MongoDB Atlas); actively used by **1000+** students at VSB Engineering College.

Hackathons Won

GOAT Code Editor | National Level Winner | Backend | WebSockets | GitHub

JSREC, 2026

- Built the backend for a real-time collaborative code editor using WebSockets with live multi-user cursor tracking, integrated chat, and syntax highlighting across 10+ languages.

Education

VSB Engineering College, Karur

2023 – 2027

B.Tech Information Technology

CGPA: 8

Ponnu Matriculation Higher Secondary School

2022 – 2023

Higher Secondary Certificate (Class XII)

83.5%

Certifications

Generative AI Fluency – Nasscom FutureSkills Prime, Dec 2025

Cert ID: 25311207730

Data Science for Beginners – Board Infinity, Dec 2025

Cert No: CERT-20251231-9421824
